Cream Cloud 1.0.1 Release Notes

Cream is pleased to announce the release of the Cream Cloud version **1.0.1.** This release provides several new features for users of the Cream Cloud as described below.

New Features

DirectAdmin Custombuild

All servers will be updated to the Custombuild version 2 for DirectAdmin. This will allow upgrades to newer version of PHP, such as PHP 7 which where not available in the Custombuild version 1 of DirectAdmin.

Configurable PHP version

We have the ability to configure the PHP version per server. Default is PHP 5.6. If you want to have another PHP version (Such as PHP 7) please contact support.
