Shipping Methods

You can configure the used shipping methods through `System -> Configuration -> Shipping Methods -> PostNL.`

Currently the following shipping methods are supported:

1. Standard Shipment: regular shipments
2. Pickup: allow the customer to select a pickup location
3. EU-Pack: used for european shipments outside of the Netherlands
4. Cash on Delivery: allow the customer to pay at package delivery. **IMPORTANT**: When you enable this shipping method, it is advised to enable the Cash on Delivery *payment method* as well. You can do this through: `System -> Configuration -> Payment Methods`

Other shipping methods, such as globalpack (worldwide shipments) might be provided in the future.
